PROFESSIONAL SUMMARY

Native Mexican Spanish voice talent and audio engineer with 8+ years in professional audio, including Latin American dubbing production. At Black Media Productions I worked on projects with leading Mexican dubbing actors such as Mario Castañeda, Beto Castillo, Alex Orozco, José Luis Orozco and Carlos Segundo. Since 2020 I have mixed and mastered music and podcasts remotely for a Los Angeles studio.

I record, edit and master my own voice to broadcast standards in my home studio, and I deliver natural, conversational Mexican Spanish with clear diction and real emotional range. As a voice AI engineer who has built products on speech-to-text and voice agents, I understand what makes clean, consistent audio for training AI models.

CORE SKILLS

- **Voice performance:** native Mexican Spanish and neutral Latin American Spanish; conversational, storytelling and narration, commercial; emotional range; consistent delivery across long sessions
- **Recording & post-production:** Pro Tools, Ableton Live, iZotope RX, Dante; editing, noise reduction, EQ, compression, de-essing, mixing and mastering; loudness standards (LUFS); high-volume, script-accurate delivery
- **Dubbing & production:** dubbing session workflow, production assistance, camera and lighting
- **Voice AI:** speech-to-text (Deepgram, Whisper), Vapi voice agents, LLM prompting and evaluation, audio data quality for AI training
- **Languages:** Spanish (native) · English (native, EF SET C2) · Italian (B2) · Catalan (B2)

AUDIO & VOICE EXPERIENCE

Voice Talent · Independent

Mexico City · Present

- Record Mexican Spanish voice work from my home studio: storytelling narration and commercial reads, with demos published at marcusescalona.art.
- Handle the full chain myself, from performance and recording to editing, processing and loudness-standard delivery.

Audio Engineer (Remote) · Black Fox Productions

Los Angeles, CA · 2020 – Present

- Mix and master music projects for artists worldwide at a digital audio studio, working fully remote since 2020.
- Mix and master multiple podcasts covering sports, film and comedy.
- Deliver broadcast-ready post-production through asynchronous review cycles and signal routing in Pro Tools, Ableton Live, iZotope RX and Dante.

Audio Engineer & Production Assistant · Black Media Productions

Mexico City · Aug 2017 – Mar 2019

- Worked on projects with leading Latin American dubbing actors, including Mario Castañeda, Beto Castillo, Alex Orozco, José Luis Orozco and Carlos Segundo.
- Collaborated with the largest cinema chains and dubbing artists in Mexico and Latin America.
- Supported audio engineering and production; also worked as camera operator and lighting engineer on multiple projects.

ENGINEERING EXPERIENCE

Lead Product Engineer · Escuela Berta Von Glümer

Mexico City · Oct 2023 – Present

- Architected and shipped five React and TypeScript applications serving 200+ students and staff, including a real-time multiplayer assessment platform and three Three.js learning environments.
- Gather requirements directly from teachers and directors and turn them into working tools, including Duolingo-style English diagnostic tests.

Systems Engineer · Getting Out

2022 – 2023

- Built Python automation services, REST APIs and SQL data models for internal data processing and reporting.

Earlier: IT Systems Engineer, Cedros College (2021 – 2022) · Systems Engineer, CONACULTA / Secretaría de Cultura (2016 – 2017)

SELECTED PROJECTS

Socio · Bilingual AI receptionist for US Latino service businesses

Vapi · Twilio · Claude · WhatsApp Cloud API

- Built a bilingual (EN/ES) voice agent that answers calls, with Claude summarising each call and sending the owner a Spanish summary over WhatsApp.
- Built a voice-note-to-quote flow: Spanish voice notes are transcribed and turned into itemised English quotes delivered as PDF by email.

Tezontle 3D · Real-time 3D sales platform for real-estate developers

React Three Fiber · Three.js · Supabase Realtime

- Live unit availability, lead capture and a sales CRM for pre-sale developments.

EDUCATION & CERTIFICATIONS

- **B.Sc. Music & Innovation** · Universidad Panamericana
- **B.Eng. Computer Systems** · Universidad Europea de Madrid
- **B.Sc. Physics (coursework through final year)** · Universidad Autónoma Metropolitana
- **Certifications:** EF SET C2 English · IBM Full Stack Developer · IBM Machine Learning & Python · Google Digital Marketing
